

Report on the experiences with B 6 concerning workspaces and other features

Experiences with B 6

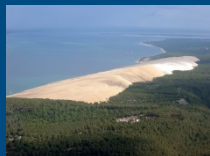

- Experience with B 6 grows as technical work goes on
- Unfortunately not many projects appear to have made much progress in 2015
- Editorial and procedural comments can be used during future review of B 6

Project Workspaces

- Workspace facility now available to all Project Group conveners
- Enables development of publications outside meetings
- All kinds of documents may be posted
- Comments may be requested
- Possibility of voting if required

Convener training

- One-day training course on B 6 and workspaces held at PTB for German conveners and others working on OIML activities
- Explained process of developing an OIML publication according to B 6
- Explained use of workspace
 - Posting documents
 - Uploading comments
 - Voting
- Other courses will be arranged for conveners
